

TECHNICAL DATA SHEET

Product: IsoSonic Hangers and Brackets
Issue Number: 01
Issue Date: July 2013

Product Information

Description

IsoSonic Hangers and Brackets are a range of pre-fabricated metal hangers and brackets with resilient, acoustic dampening components.

Application

Secure metal channels and/or timber battens in acoustic ceilings and sound insulating wall linings.

Appearance & Packaging

Supplied in boxes; stock quantity of 100.

Physical Properties

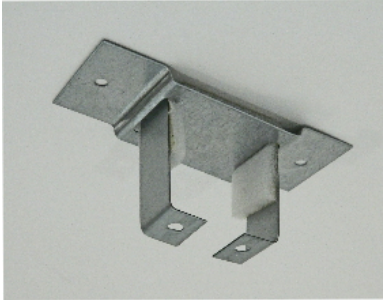

IsoSonic Hanger Type A

Box Weight : 11Kg

Max Load per Hanger
(before deflection occurs) : 80Kg

Isosonic Hanger Type C

Box Weight : 10.8Kg

Max Load per Hanger
(before deflection occurs) : 20Kg

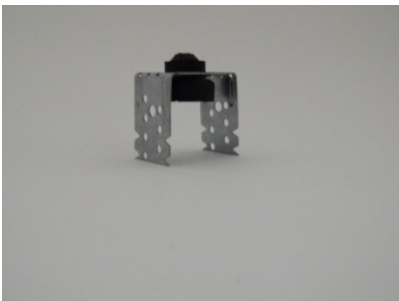

Isosonic Hanger Type D

Box Weight : 8.5Kg

Max Load per Hanger
(before deflection occurs) : 20Kg

Isosonic Bracket 45

Box Weight : 5.8Kg

Max Load per Hanger
(before deflection occurs) : 98Kg

Isosonic Bracket 125

Box Weight : 6.4Kg

Max Load per Hanger
(before deflection occurs) : 98Kg
