

HIGH PERFORMANCE IMPACT SOUND & VIBRATION ABSORPTION MAT

Isosonic Mat size - 8 x 800 x 1000mm

Building Regulations

Building regulations level sound insulation can be achieved on concrete and timber floors when used in combination with a **decoupled ceiling** (see Isosonic Ceiling Fixings brochure)

A simple, low cost solution for acoustic, vibration and shock absorption problems.

Robust, high density mat with low compressibility made from reclaimed rubber.

Ideal for:

- Improving the sound insulation of floors
- Vibration isolation of machinery and domestic appliances
- Providing shock absorbing surfaces for play and sports areas.

Floor surface finishes:

Isosonic Mats can be used as a direct underlay for Hardwood & Laminate flooring.
