

## Appendix 2

### ENVIRONMENTAL POLICY

- Thermal Economics Ltd recognises the need for implementing environmental controls within company operations.
- It is the intention of the company to carry out its activities with minimum impact upon the environment and to ensure measures are in place to prevent risk of pollution to both the company and the environment.
- A proactive approach to environmental management will ensure awareness of changes to legal obligations and continued improvements of environmental performance.
- Employees will be encouraged to take responsibility for environmental issues by means of training and communication.
- Specific and measurable objectives and targets will be reviewed and set at management level.
- The company will encourage all third parties involved to implement similar standards.
